## **DETAILED ACTION**

1. This action is responsive to communications: the application and IDSs filed 9/15/03, which is a continuation of the application 09/236,462 filed on 1/25/99, now US Pat No. 6,654,931, which claims benefit of 60/072,923 filed 01/28/98.
2. Claims 1-17 are canceled.
3. Claims 18-45 are pending in the case. Claim 1 is the independent claim.

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 18-45 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding independent claim 18, it is unclear what statutory subject matter is claimed since the language "multimedia browser" can be considered either an apparatus when embodied in a computer or a computer program product.

Dependent claims 19-45 are rejected for fully incorporating the deficiencies of their base claim.

***Claim Rejections - 35 USC § 101***

6. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

7. Claims 18-45 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The multimedia browser is non-statutory subject matter since it does not fall within the statutory subject matters as above.

It is suggested that applicants replace the "multimedia browser" with the "MPEG-4 audio-visual object browser system" as disclosed in the specification (pages 12, 15, 17).

***Conclusion***
